HAVE YOU THOUGHT ABOUT A CAREER WORKING WITH OLDER ADULTS AND SENIOR CITIZENS?

I really enjoyed studying Gerontology and I learned a lot from my internship. It is wonderful being able to help seniors maintain a quality lifestyle in their homes and communities.

Andrea

Becoming a Nursing Home Administrator provides me with the opportunity to improve the lives of people who live in nursing homes. This is an excellent profession for people who care about older adults and elderly.

Ron

As I've learned in my Gerontology classes, seniors are a very large - and growing - diverse population. I'm excited about the field of Gerontology because this diversity means that there are many different kinds of opportunities for working with seniors.

Maria

Wilbur Wright College, one of the City College of Chicago, offers a Certificate and an Associate Degree in two Programs:

GERONTOLOGY (THE STUDY OF HUMAN AGING)
AND
NURSING HOME ADMINISTRATION

Did you know?

Seniors are enjoying longer lives, better health, more active lifestyles and are growing old in their own homes.

In 2011, the first of the nation's 77,000,000 “baby boomers” reached age 65.

The fastest growing segment of the total population is the “oldest-old” persons 85 years and older.

Senior services are rapidly growing. There are a wide range of jobs in retirement communities, home health care, adult day care programs, state and city government, senior centers, supported and assisted living, nursing homes, rehabilitation facilities, parks and recreation, and advocacy and case coordination agencies.

Summer 2014

The American Red Cross (ARC) has required skills that must be mastered to move up to the next level in the Learn to Swim program. If your child did not receive the small Wright College ARC card verifying that they completed these skills, they remain in the same level. Moving your child up a level before they have mastered these required skills places them in danger and slows the next class because they cannot keep up.

If your child is transferring from another program, please call and speak to Genevieve to assess your child's skill level and what class they should be placed in.

PLEASE NOTE PROCEDURES:
On the first day of class both new and returning students must have a parent or guardian present with them to complete health forms before the student enters the water.
For Preschool Aquatics and Levels I-6, students are required to bring swim cap and goggles to each class.
For questions, call Genevieve, Aquatic Department at 773/481-8918 or send her an e-mail at gakers@ccc.edu.
Students may register for aquatic classes after the first class meeting if room is available. There is no reduction in tuition for late starts.

*No classes will be held*
*Friday, July 4*
* &
*Saturday, July 5*

Children **must** be registered in appropriate age and level according to Wright College Red Cross guidelines. If not, the child will be **dropped**.
