GUARANTEED AND DUAL ADMISSION

Program Description:
Northeastern has a signed agreement with City Colleges of Chicago which allow for admission to any CCC and Northeastern. Under the agreement, students have full access to Northeastern’s offices of Enrollment Services, Academic Advising, and Financial Aid. Students must maintain continuous full- or part-time enrollment with a 2.0 grade point average to remain eligible for the dual admissions program.

Eligibility:
- Maintain at least a 2.0 GPA
- Be a full-time student at CCC at time of application
- Have earned at least 24 college credit hours
- Complete the AA or AS degree

Application Information:
The earlier you apply to the program the earlier you will receive the benefits of the program. To participate in these guaranteed admission programs please complete the form and return to the contact on the form.
Application Deadlines:
Fall - April 1
Spring - September 1
Summer-March 1
- Submit a final transcript upon completion of the Associates degree
- Submit an initial transcript with the GDA application form
- Students who apply before 24 CH must also submit HS transcripts

Helpful Resources:
- Transfer Guides
- Transfer Scholarships
- Transfer Tuesdays

Other CCC Partnerships:
- Math & Science Concepts Minor (MSTQE)
- STAR Partner

Contacts:
Dan Zobott, Transfer Coordinator
Phone: 773-442-4018
Email: d-zobott1@neiu.edu

Benefits
- Access to the NEIU portal
- Establish an NEIU email account
- Access to Library services
- Advising support from both CCC and NEIU
- Waived application fee
- Scholarship awards for eligible students
Program Description:
The MSTQE program is a “Bridge” program with City Colleges of Chicago in which faculty and students from the City Colleges and Northeastern Illinois University teach and study together. The goal of the Consortium is to reduce cost and speed time to graduation for City College students while creating a pipeline to increase the diversity of individuals who become effective teachers of math, science and technology at the elementary and middle school level and/or in special education, and bilingual education.

Students are encouraged to begin the MSTQE minor while working on the general education requirements and prior to applying to the College of Education. Students can complete most of the 100 and 200 level courses in the minor while still registered at City Colleges. Courses in the minor fulfill many of the general education and foundations course that meet the requirements of the College of Education as well as applying toward an Associate’s Degree at the City Colleges of Chicago.

The suggested combined double major of Elementary Education (ELED) and Middle Level Education (MLED) consists of 56 hours in professional courses, which are divided into 5 blocks. The Math and Science Concepts minor is an essential part of the program and consists of 47 hrs of math and science courses designed specifically for the MSTQE program. Students who complete this program qualify for the Illinois Professional Educators’ License, the state endorsements in elementary school teaching (K-5), in middle school teaching (grades 6-8) as well as the state endorsements in middle school math, middle school science and language arts. As an MSTQE student, you also have the option to complete the Math and Science Concepts minor along with an Elementary Education major, Bilingual/Bicultural Education major, or Special Education major instead of the suggested ELED/MLED double major. Graduates have the credentials in the contents schools are hiring.

Application Information:
Students are able to participate in this program through Truman College or Wright College by registering for MSTQE courses at their campus. Speak to your Transfer Director at Truman or Wright College today!

Helpful Resources:
- Transfer Guides
- Transfer Scholarships
- Transfer Tuesdays
- Occupational Outlook Handbook

Benefits
- Students are able to take courses from NEIU professors at CCC prices
- Preparation for the Illinois Professional Educators’ License
