

# Westwood Credit Transfer – CCC AAS Construction Management

Westwood College closed its doors on March 4, 2016, leaving many students who had attended one of the 14 campuses across the country without degrees. City Colleges of Chicago has responded to the request from the Illinois Community College Board to do what we can to help displaced Westwood students continue their education and gain the degrees they have been working for.

City Colleges of Chicago does not normally accept transfer credit from Westwood College due to its [Transfer Credit Policies](#). Under CCC’s policy regarding awarding transfer credit using [Prior Learning Assessment](#), the courses listed below will be transferred in from any Westwood College according to the following guidelines:

1. Approved courses listed below will be accepted as transfer credit and apply toward the graduation requirements in three CCC programs:
  - a. Associate of Applied Science in Visual Communications (Kennedy-King)
  - b. Associate of Applied Science in Construction Management (Kennedy-King)
  - c. Associate of Applied Science in Networking Systems and Technology ( Daley & Wright)
2. Credit will be accepted only after student applies and is admitted into one of the three approved programs. CCC will not award transfer credit
3. Residency, completion of general education requirements and other academic policies related to degree completion that apply to Westwood transfers can be found in the [Academic Handbook](#).

Westwood Courses approved for transfer:

Westwood Course	CCC Equivalent Course
CNMT 100 Introduction to Construction Management	CGMT 601 Introduction to Construction
