

## **Advance Your Career in Early Childhood Education with a Scholarship**

**You may be eligible to receive a full scholarship and wraparound support as you work for a credential or associate degree in early childhood education.**

- The scholarship is not based on need; covers tuition and fees and a cost of attendance stipend
- Flexible class schedules: online, in-person, evenings, and weekends
- Higher credentials and degrees lead to higher pay
- Credentials and degrees are stackable, and aligned with Gateways; you can also transfer to a bachelor's degree program
