The Program

The Collision Technology program at Kennedy-King College provides students with the necessary foundation and practical experience to pursue entry-level positions that meet the rapidly evolving needs of the Collision Technology industry.

At Kennedy-King College, students are trained with the most up-to-date, state of the art tools and equipment. All of our instructors are ASE and I-Car certified. Students learn the technical skills essential for employment in the field of Collision Technology, leading to industry employment at insurance companies, collision industry manufactures, body shops, as well as self-employment opportunities.

Kennedy-King College's Collision Technology program also offers:

- High quality training with low tuition costs
- Day and evening classes
- Program is WIA Educational funding eligible (Workforce Investment Act)
- Hands-on training
- Web based training

Certificates

Kennedy-King College offers an Associate in Applied Science degree in Collision Technology. The Associate degree is achieved by completing a sequenced and focused educational program, which includes a combination of Automotive and General Education courses. In addition to the Associate in Applied Science degree, Kennedy-King College also offers Advanced and Basic certificates in specialized areas, under Collision Technology.

Advanced Certificate

- Automotive Collision Technology

Basic Certificates

- Auto Body Repainting Technology
- Auto Body Reconstruction Technology

Career Opportunities

Collision Technology is rapidly increasing in sophistication. The growing complexity of automotive technology requires that cars are serviced by skilled technicians. According to the U.S. Bureau of Labor Statistics, the demand for trained collision technicians will continue to increase, with even more opportunities for those who successfully complete postsecondary automotive training programs.

Employment Opportunities

- Shop estimators
- Shop managers
- Auto Body Detailers
- Auto Body Paint and Refinishing Specialists
- Shop Owner
- Collision Industry Sales Representative
- Collision Unibody and Frame Specialist
- Custom Car Builder
