Help Us Help You Be Successful

In order to get you started in the English and Math courses that best suit your needs, we would like to get a better understanding of your knowledge and skills by having you complete assessments for each. These are not tests in the sense that you can pass or fail, but you should take them seriously so that you are set up to be as successful as you can be as you begin your college career at CCC. This will determine which courses you take as a new student.

The English assessment may only be taken in a proctored environment. The first math assessment can be taken online anywhere. Thereafter, each assessment must be taken at one of the City Colleges of Chicago. You can also use ACT or SAT scores, prior course completion at CCC, or credit from another college for placement. If you are attempting to waive your English and/or Math placement tests using an official college transcript or ACT/SAT scores, please see a college advisor.

Note: Please carefully review the preparation materials provided under Placement Resources before beginning the placement tests.

Confirm Your Scores

Confirming your scores means those are the scores you want us to use to determine your course placement. You can do this at any time, once we have a score or waiver on record. If you confirm your scores and then subsequently provide a better score, that score will appear here and will also be used for registration.

Once you have confirmed your scores, talk to an advisor about your placement and the best English and Math courses for you.
